FARMS TO GET MORE MACHINERY

MORE MACHINERY FOR BOSNIAN FARMS -- Sarajevo, Oslobođenje, 20 Mar 51

This year the "Plug" (Flow) Zemaljsko Preduzece za Snabdijevanje Poljoprivrede (Republic Agricultural Supply Enterprise) in Sarajevo will distribute 15,000 plows, 3,500 corn cultivators, 1,500 harrows, 800 corn grinders, 290 seed separators, 160 wheat sowers, and 250 grass mowers to farms in Bosnia-Herzegovina.

This year the republic will receive a Yugoslav-made rotary digger and 250 centrifugal pumps for reclamation purposes. The "Plug" Enterprise will also distribute 62 tractors to farms in the republic. Forty-eight of these will be of the Rakovica type, made in Yugoslavia, while 14 will be of the Ansaldo type, which are imported, but are assembled in Yugoslav factories. Thus for five tractors of the Ansaldo type have been delivered to farm work cooperatives in Bosnia-Herzegovina.

TO PRODUCE ALL-PURPOSE FARM MACHINE -- Ljubljana, Slovenski Porocevalec,
10 Mar 51

The Tovarna Verig (Chain Factory) in Lesce is producing an all-purpose agricultural machine, which it calls Vsedel (All Work). This machine is alleged to be an improvement of a similar Swiss agricultural machine. Thus far two prototypes of this machine have been constructed. One of these has been sent to the Institute for Mechanization of Agriculture in Ljubljana for testing purposes. After it has been tested, serial production will begin. This year the factory will produce 4,000 plows more than last year.

FARM MACHINE PLANT DOUBLES OUTPUT -- Ljubljana, Slovenski Porocevalec,
15 Mar 51

According to the 1951 plan, the "Pobeda" Factory in Novi Sad will produce 500 binders. This month a new heat-treating shop at the factory will begin operation. This year it will produce half of the heat-treated castings needed by the factory, while in 1952 it will produce all of the castings needed by the factory.

50X1-HUM

This year the factory will produce twice as many agricultural machines as in 1950.

The agricultural machinery factory in Osijek produced over 34,000 plows in 1950.

TO COMPLETE FIRST SERIES OF TRACTORS -- Ljubljana, Slovenski Porocevalec,
13 Mar 51

The Industrija Motora (Engine Enterprise) in Rakovica near Belgrade will soon complete its first series of 50 Yugoslav-made tractors of the 08-Zadrugar type. These tractors will be sold to farm work cooperatives and state farms in Serbia. The Zadrugar tractor, equipped with a 50-horsepower engine, is intended chiefly for agriculture. It can pull three plows simultaneously.

One year elapsed between the construction of the prototype and the beginning of serial production.

TO PRODUCE 20,000 PLOWS -- Belgrade, Borisa, 15 Mar 51

Tuzla, 14 March -- About 20,000 plows for hilly terrain will be produced this year in the agricultural machinery factory in Tuzla and in a workshop in Kostajnica.
